## IMPORTANT PUBLIC HEALTH INFORMATION

# Measles

## Is your child protected?

- Has your child had their MMR (measles, mumps and rubella) jabs? If not, it is important they have them as soon as possible
- Children should have their first MMR just after their first birthday, and their second after they are 3 years 4 months old
- There is currently a large outbreak of measles in Wales and your child is at risk of serious illness if they are not protected
- **If your child has not been vaccinated or you are unsure, contact your GP surgery today**

*For more information see*
