

Addendum to GP Practice Privacy Notices: South East Cardiff GP Practices (May 2022)

Third sector organisations we work with

In order to provide you with the right level of care, from the right professional, and at the right time, the Practice works with third sector organisations to deliver the following projects:

Tier Zero Mental Health Referral Project – CARDIFF MIND

This is a Psychological Interventions Service to support patients with low level mental health conditions (i.e., conditions that do not require intervention by a GP). GP practices make referrals to the following organisation in the City and South Cardiff Cluster. This organisation is the specialist provider for mental health support.

Where appropriate, your information will be shared with Cardiff Mind via your GP. This will be done with your consent to share your confidential information. The information shared is your:

- Name
- Date of Birth
- Address
- Telephone contact number
- Gender
- Sexual orientation
- Ethnicity
- Reason for referral
- Safeguarding and risk information
- Referral consent and contact permissions

Community Connectors Service – MIND Cardiff

This project operates across the South and East Cardiff. The Service offers our patients support to help them gain access to local community-based services that may help them manage issues (not health related) that are affecting their wellbeing. Your GP can make a referral to this Service, or you can self-refer. Only limited information is required for patients to access this service, such as:

- Name
- Address
- Contact details
- Brief summary as to the support required

Asylum Seeker Support Worker Project- Red Cross

This project offers support to those seeking asylum, who have arrived and are living within the local cluster area. The main aim of the service is to support individuals in registering with GP Practices and advising them on how to access other health and wellbeing. Patients are referred, with their consent and only the following information is shared:

- Name
- Address
- Contact details
- Brief summary as to the support required

The legal bases for sharing your information under these projects

- **Article 6(1)(e)** - Processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.
- **Article 9(2)(h)** - Processing is necessary for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and service.
- **Article 9(2)(g)** – Processing is necessary for reasons of substantial public interest, on the basis of Union or Member State law which shall be proportionate to the aim pursued, respect the essence of the right to data protection and provide for suitable and specific measures to safeguard the fundamental rights and the interests of the data subject.

Access and security of your personal information

- To further support patients, and to ensure that these organisations can help you, the Practice needs to **share your personal information with them**. This information will be kept to a minimum (as described above) and may include a brief summary of the support that your GP feels will be helpful.
- The sharing of these details will be managed in such a way to assure that it **remains confidential**, and any organisation that either shares or receives your information has a duty of confidentiality and to ensure that the personal data of **patients is shared and stored securely**.
- If any of your information needs to be communicated by email, this is done so using secure NHS Wales email addresses where all information is protected via secure web communication channels.
- These organisations will not share patient information further unless they have received your **explicit consent in writing**. These organisations may share information that they have collected during patient assessments with your GP.

***If you do not want your information to be shared with the third sector organisations listed above, please contact the Practice reception, or you can advise your GP at your consultation.**
